DETAILED ACTION

1. Claims 1-30 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention provides new system and method and machine readable medium for encoding and decoding an image with the use of fixed-rate data blocks having simplified header information that allows for faster processing of individual data blocks, and may also reduce the microchip space necessary for a decoding system (specification, page 26, first paragraph). In particular, the new method, apparatus and computer product comprise the following features, which the prior art, either taken singly or in combination, does not teach:

- at least one block encoder for receiving each image block and for compressing each image block into an encoded image block by associating each original image data value with an index to derived image data value in a set of quantized image data values (see independent claim 1);

- an encoded image decomposer for decomposing the encoded image data file into a modified header and at least one compressed image block, each image block having at least one associated codeword and a plurality of image elements associated with an index value; at least one block decoder coupled to the encoded image decomposer for decompressing the at least one compressed image block into at least one decompressed image block by generating a set of quantized image data values and

mapping the index value to a quantized image data value from the set of quantized image data values (see independent claim 8);

- generating a set of quantized image data values including the at least one codeword and at least one image value derived from the at least one codeword; mapping the original image data value to one of the quantized image data values to produce an index value for each image element (see independent claims 15, 19, 21, 23, 27 and 29).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
